Petrut Poenaru

Web Developer
Bacău, Bacău, România

Rezumat

I developed my passion for Web Development since high school when I used all the resources available on the internet to learn and I discovered many opportunities and programming languages when I started, now I have almost two years in the industry learning more and more things that improve the quality web development.

Experiență

MMATech
Frontend Developer
septembrie 2023 - Present (11 luni)

Build management applications for clients in various fields such as: food banks, healthcare, energy and automotive
Manage applications using Ag-Grid tables, forms and charts

PixelTime
Junior Frontend Developer
octombrie 2022 - octombrie 2023 (1 an 1 lună)
Remote

Creation of e-commerce sites for stores in the food sector
This job, being the first one, helped me a lot to learn skills in Angular, having different projects through which I could perfect myself as a web developer.

Studii

Universitatea Vasile Alecsandri din Bacau
